

A MARI

OCEAN GIN

TASTING NOTES

BOTANICALS:

Atlantic Ocean Water

Juniper

Coriander

Lemon

Orange

Naartjie

Angelica

Cardamom

All Spice

And a selection of Cape Coastal Fynbos

TASTING NOTES:

Nose: citrus-forward and fresh

Palate: highlights of citrus merging into a mid-palate of rich florals and peppery spices

Finish: Long and smooth with a slight minerality

SERVING SUGGESTION:

Works brilliantly in a dry Martini- light on the vermouth
(to quote; wave the glass in the general direction of Italy.)

Pairs well with a light tonic and a slice of grapefruit and spring of thyme.

Serve in a gin goblet with lots of ice.

FOOD PAIRING:

Our gin works with gravadlax as it brings out the spice elements.

It likes a delicate desert like a cardamom infused pannacotta.
